

WALDO

a REAL CLOWN with a REAL MESSAGE

You say you want a school program that teaches character education & values in a memorable way? You say you want a convocation that is both fun & educational? You say you like clowns? You are in luck, my friend! A Waldo the Clown show is filled with action, color, excitement, teaching, audience participation, & fun. You will witness incredible demonstrations of juggling, balloon sculpturing, magic effects, & clowning skill, all used to illustrate & clarify the important points of the program. Topics such as self-esteem, friendship, respect of others & the importance of books (to name just a few) are visualized, making them exciting & new. Waldo the Clown will entertain you, mystify you, & make you laugh. He will also effectively teach you & your students like you have never seen it done before.

"Waldo! Thank you so very much for your wonderful visit to our school. The children enjoyed the show so much & got so much out of it. I truly don't remember convocation where the kids were so excited & involved. Your special visit with our class was like icing on the cake. Thank you so much for brightening our week!"

Perry Worth Elementary School - Lebanon, IN

"Waldo's program incorporates a great deal of audience participation & he is skilled at maintaining the children's attention throughout the program. This is a program our students enjoyed thoroughly."

Danville North Elementary - Danville, IN

PROFESSOR STEVE

making SCIENCE both FUN & EXCITING

Take away Waldo's makeup & outfit, keep the sense of humor, add a lab coat, & you have Professor Steve. Professor Steve conducts programs that teach scientific principles in a fun & exciting way. Lots of interaction, comedy & some really great demonstrations ensure that your kids will have a wonderful time learning all about science. You will never hear a child say that science is boring once they have spent time with the Professor.

"It is nice to have a program that can come to our school & teach & entertain at the same time. You have excited many of our students about science. I look forward to more programs in the future."

South Newton Elementary School - Kentland, IN

"We had Professor Steve come last week for a convocation & it was outstanding as always. The kids always love his convocations. He is very energetic & very knowledgeable as well. The kids remember him from year to year & always take something from his convos. Professor Steve is not only fun, but educational as well."

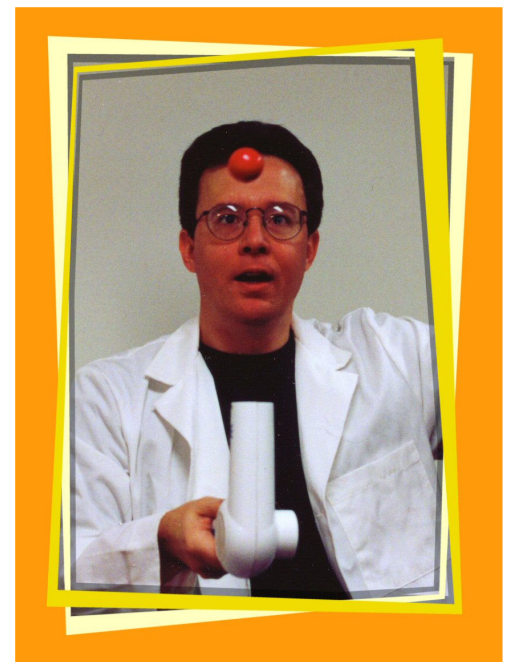

Hickory Elementary School - Avon, IN

"Professor Steve came to our school & did a fantastic job. His information was accurate & interactive & allowed kids to participate in his program. We would definitely recommend him to other school districts."

Elkhart Elementary School - Elkhart, IL

"I thank you for coming to our school sharing so many cool things. Everyone loved it, & I was shouting saying Go Professor Steve! I think the Principal loved it too. I enjoyed watching your exciting things. And I bet you had fun just like I did."

Student - Park Hall Elementary School - Park Hall, MD

Steve Walden (a.k.a. Waldo / Professor Steve) has been working with youth & teachers for over 25 years. He is a 1981 graduate of Lincoln Christian College (Lincoln, IL), & served as youth & education minister at two different churches in Indiana before going into Waldo & Professor Steve full-time in 1989. Steve is an experienced performer, comfortable with working in front of groups of all sizes, & an experienced communicator, capable of working with all ages. He combines what he learned from college & his youth ministries with the extensive training he has received in the areas of circus & clowning from Ringling Brothers instructors & other performers (not to mention the years of time spent in front of the television watching Mr. Wizard, Beakman's World & Bill Nye the Science Guy). In addition, Steve runs Waldo's Clown Supplies, a mail-order business specializing in clowning, juggling & balloon sculpturing resources.
